

Induction lighting – Flood light 80W rating ; range extends up to 300 W.

## Description / Features of Flood lights:

- Energy efficient Induction lighting technology.
- Input voltage range : 170 ~ 260 V AC
- Colour temp.2700K ~ 6500K.
- Light source : Circular tube
- Life span > 100,000 hours.
- CRI > 80 ; Power factor > 0.99
- Lumen Efficiency : 80 to 85 Lumens / Watt
- Lumen maintenance: Above 80 % even after 80,000 hours.
- IP 65 / Suitable for Indoor as well as Outdoor installation.
- Working temperature: -25 to + 50 Deg C
- 5 year Warrantee.

## Application areas:

- Outdoor buildings , Parks , Airports , Crossways , Subways , Sculptures.

## Terms of delivery & Prices:

- Please contact us for more details along with your requirements.
- Various models available : 40 , 80 , 120 , 150 , 200 & 300 Watts
